

Hike #463

1999-04-21

O.T.P. Hike - Chumash Trail/Rocky Peak

Roland Bassett - Leader

THE HIKE: We will depart from the Hummingbird Creek trailhead and proceed to Rocky Peak then on to the Chumash trailhead and unlike in the past, we will return to the origination point. The alternative available to the less macho types is to arrange for a shuttle between the two points (the parking place at Kuehner Dr. and the end point of the Chumash trail at Flanagan Dr.) Note: if this is your preference, please either make your own arrangements, or else one or two macho types can return for you.

DIRECTIONS: Take the 118 freeway westbound from the Valley and exit on Kuehner Dr., turn right and immediately park on either side of Kuehner Dr.

START TIME: The usual, 9:30 AM sharp.

Roland Bassett

---

Unknown to either of us, Roland is repeating his hike in the same area that I have already specified for the 5 May 1999 hike. If we do my hike, we'll be essentially covering most of the same territory as Roland will be. As a consequence, I am considering choosing another hike. So watch this space.
